15. [ ] Talked further with Bill Woodruff, on the staff of the Senate Appropriations Committee, regarding the material we are preparing on research grants and showed him a copy of the draft of our transmittal letter to Senator Richard Russell (D., Ga.). Woodruff made a suggested change in the letter and added that he did not see any problems with regard to this. He intends to suggest to Senator Russell that he (Woodruff) show this list to Senator Mike Mansfield (D., Mont.) and then return it to the Agency for safekeeping.

I also talked with Woodruff about the bill which Senator Sam J. Ervin, Jr. (D., N. Car.) had reintroduced (S. 782). I asked Woodruff for any thoughts he had as to how we should handle this. He suggested that we work through Senator Birch Bayh (D., Ind.) in an attempt to solve our problem within the Senate Judiciary Committee. He also suggested that Mr. Helms raise this as a problem the first time he meets with the CIA Subcommittee.

Talked further with Woodruff about a possible visit to [ ] and several West Coast contractors during the Lincoln day recess. Woodruff indicated that he would be traveling with Senator Milton Young (R., N. Dak.) during this period and unless we felt a very pressing need he would not visit [ ]. He commented in this regard that having visited the area once he was well aware of the need to retain this facility. Woodruff and Senator Young will be in San Diego during the week of 10 February. He suggested he try to meet me in Los Angeles between the 12th and the 14th to visit the two contractors. He is to let me know further about this and I have alerted Mr. Lloyd Lauderdale. 25X1
